

St John's Church of England School

Headteacher - Mrs J Hester

'I can do everything through Christ, who gives me strength'
Philippians 4:13

Dear Applicant

Thank you for your interest in working at our school.

St John's is a two form entry school and we are proud of our diverse community from both within Harrow and our neighbouring boroughs. We warmly welcome children of Christian faiths, other faiths and of no faith to share our Christian Ethos which permeates and underpins everything we do here at St John's. Often, visitors say of our school that it has a 'good feel', and this, after just a brief time in the building. We believe that the distinctive characteristic that gives our school the 'good feel' factor is our Christian ethos, working together to inspire and empower each child to lead a happy and fulfilling life. It is this highly valued and widely shared ethos which makes our school special to us.

Our challenging curriculum is engaging for all, enabling our children to become independent learners and preparing them for the next step on their learning journey. We also see the importance in developing their abilities in other areas such as music, sport and the creative arts.

Everyone at St John's believes in our vision to make a difference..... and we most certainly do!

St John's is a special place, with happy and friendly members of staff, great children and supporting families and governors. I hope that you will be interested in coming to join the St John's family. You are very welcome to visit for an informal look around the school. Please contact the school office for an appointment.

I look forward to hearing from you.

Yours faithfully

Jo Hester
